

DP Work App

Install Guide

dpworkbengaluru.vercel.app

Install once on your phone — use it like a native app, no App Store needed.

■ Android — Google Chrome

1 Open Chrome

Launch Google Chrome on your Android phone.

2 Visit the URL

Go to: dpworkbengaluru.vercel.app

3 Look for the banner

A blue banner saying "Install DP Work App" will appear at the bottom of the screen.

4 Tap Install

Tap the Install button. The app icon will be added to your home screen.

5 Open from home

From now on, tap the DP Work icon on your home screen — no browser needed.

■ Tip

Long-press the app icon on your home screen to see quick shortcuts: Members, Log Visit, and DP Drives.

■ iPhone — Safari

1 Open Safari

Open the Safari browser on your iPhone (must be Safari, not Chrome).

2 Visit the URL

Go to: dpworkbengaluru.vercel.app

3 Tap the Share button

Tap the Share icon at the bottom of the screen (box with an arrow pointing up).

4 Add to Home Screen

Scroll down in the Share menu and tap "Add to Home Screen".

5 Confirm

Tap "Add" in the top right. The app icon will appear on your home screen.

6 Open from home

Tap the DP Work icon — it opens full screen, just like a native app.

Note

On iPhone, "Add to Home Screen" only works in Safari. If you open the URL in Chrome or another browser, the option will not appear.

■ What you get with the installed app

Home screen icon

Looks and feels like a native app — no browser address bar.

App shortcuts

Long-press the icon to jump straight to Members, Log Visit, or Drives.

Offline page

If you lose internet, a friendly page tells you and lets you retry.

Auto updates

When a new version is deployed, a banner appears — one tap to update.

Secure login

Your session is protected with a signed token. Always log out on shared devices.
